

NFPA 3000™ (PS) STANDARD FOR ASHER PROGRAM

Standard for an Active Shooter/Hostile Event Response (ASHER) Program

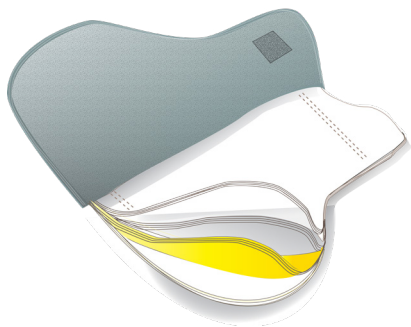

Nationwide and around the globe, communities are facing an increasing number of tragedies involving active shooter and/or hostile events. The need for an integrated preparedness, response, and recovery program is greater than ever before. Protect your community with NFPA 3000™ (PS), Standard for an Active Shooter/Hostile Event Response (ASHER) Program. This standard addresses all aspects of the process, from identifying hazards and assessing vulnerability to planning, resource management, incident management at a command level, competencies for first responders, and recovery.

The standard suggests that all first responders have access to body armor in Level IIIA or higher (includes Level IIIA Handgun, Level III and Level IV Rifle Protection).
